

George's Marvellous Medicine: Sensory Idea

Make a marvellous medicine

What interesting ingredients do you have in your house? Explore each item, how it feels, looks, smells, tastes (If it's edible!) does it make a sound? Here's some interesting ingredients you could explore:

- Toothpaste
- Honey/Syrup
- Shaving foam/squirty cream
- Mixed herbs
- Chilli Powder!
- Sugar
- Bubble bath
- Jelly
- Cold spaghetti (worms)
- Bicarbonate of soda
- Angel Delight Powder
- Cinnamon
- Food colouring

If you add bicarbonate of soda and a liquid based ingredient to your mix it will fizz! It might also make the smell of the mix stronger.
